DECLARES STANDARD OIL MAN WAS IN PROVIDENCE, FEB. 1

The best clue yet offered in the history of the disappearance of Henry Charles Coe, Jr., the Standard Oil salesman, developed today from the story of Miss Little Tufts of Providence, who two days ago telephoned Coe's family that she had seen the young man in Providence.

Young Coe has been missing ten days. His wife at less than a year, in their home at No. 1208 Commonwealth avenue, is almost delirious under the strain of times, and anxiously she sees her husband returning.

Miss Tufts, whose story is under investigation today, at first merely advised the family she had seen Coe at a Providence cafe; but today she said a more complete story, to the effect that she knew Coe personally and saw him last summer and came still nearer, which makes her identification at the time also now as Coe stronger than of first appeared. She also says she knows Mrs. Coe.

"I saw Mr. Coe Monday night, February 1," said Miss Tufts. "He was with another man, a man with curly red hair and a protruding upper lip. I am positive the man I saw was Coe. I was introduced to the man I met here, but August in Boston. He was introduced as 'Mr. Clarke,' and we talked then about his business."

"I traveled as a demonstrator and he said at that time that he was traveling for the Standard Oil Company."

"I knew Mr. Coe's wife, too. I knew her when she was Helen Alston, and I stopped at her home when her father conducted a hotel here."

"When Coe came into the cafe here last Monday night he stopped to say hello and asked me to go with him to the Standard Oil Company and we discussed a map that the company was interested in. His answers were a little evasive at times. But I thought

Seer Predicts Bright Future For Baby Sayre

HOBOKEN, N. J., Feb. 8.—Westly fame and political fame are now for Francis Sayre, President Wilson's grandson. This grandson of the White House baby is revealed by Professor Gustave Meyers, the astrologer. Here is what he says:

"I find that this child will be born under the zodiacal sign of Cancer in the ascending sign of the moon in the ruling planet of this sign. Therefore follows and signifies that the moon is the ruling planet in the child's life. The moon in conjunction with the planet Jupiter signifies that the child will be born of great wealth, fame and success, but most of the wealth will be through legacies, wills and the like of the dead."

"The four cardinal signs of the zodiac, Aries, Cancer, Libra and Capricorn—placed in the four angles of the heavens—signifies that the child is bound to lead an eventful, checked and remarkable life, and will rise to the top of the ladder of fame and success and become quite a factor in political matters."

WILSON SEES GRAVE PERIL IN WAR ZONE NOTE

WASHINGTON, Feb. 8.—That the situation created by Germany's declaration of a war zone around the British Isles is of the gravest character was indicated today by high administration officials. President Wilson told his officers that word was being received from Ambassador Carrivart to the full explanation, pointed out by Germany for this move.

It is received on formal notice that the United States will be taken by the United States in protest or inquiry.

The President indicated that the United States note early related with things the United States would like to know about.

There were no tangible developments in the situation today, but it has become apparent that the United States intends to take issue with Germany on at least some features of her declaration of a war zone around Great Britain.

It was indicated further that the statement recently issued by the German government, which stated that the United States had no right to interfere with the German blockade, was being regarded as a serious matter, and that the United States will have a great deal to say in connection with the matter.

From an authority high in the administration it was learned that Germany has not attempted to explain the situation.

Admit Russia Is to Have Galicia

LONDON, Feb. 8.—That the Austrian province of Galicia is to be part of Russia's reward in the war was practically admitted by the British government today. In response to parliamentary questions as to whether the Foreign Office was aware that Russia had annexed Galicia, and whether British commercial interests were being protected in the region, Lord Grey stated today that he was considering the appointment of a British commercial agent to reside at Lvov.

GERMANS HURL FRESH TROOPS AT ALLIES' LINE

PETERSBURG, Feb. 8.—Official reports are current here that a Russian fleet is attacking the German naval base at Danzig on the coast of Poland, an arm of the Baltic Sea. These reports are unconfirmed at the moment.

LONDON, Feb. 8.—The German attack of Danzig is a strategic move, it is believed. It is a move to break the Russian line of communication between the Baltic and the North Sea. COAL FAMINE IS NOW THREATENED THROUGHOUT FRANCE

PARIS, Feb. 8.—France is faced with a coal famine, because the Germans hold the territory from which most of the fuel is obtained in normal times. It is estimated that the present monthly demand is 1,000,000 tons more than a group, which makes it necessary to draw upon the strategic supply and to use wood for fuel.

War Prisoners to Face Starvation Before Germans

AMSTERDAM, Feb. 9.—Discussing England's plan to cut off German food supplies, the Cologne Gazette says:

Prisoners of war must starve first. We have 600,000 prisoners, and the parts of Belgium and France we occupy contain millions of people. If it comes to starving the subjects of hostile countries will suffer first.

There is an interesting political significance in the general aspect.

"Prisoners declare the Austrians are much sicker than we are," says a German official. "The Austrians are suffering from lack of food, and the Germans are suffering from lack of food."

The Austrians are suffering from lack of food, and the Germans are suffering from lack of food.

The Comradeship of "Bull" Durham

There is something about ripe, mellow "Bull" Durham tobacco that appeals to clean-cut manhood the world over.

Wherever in the world two "Bull" Durham smokers meet—in a hotel lobby or club in Europe or America; at cross-trails in the Klondike; in some far-off seaport on the Pacific—each recognizes in the other a man to his own liking, a comrade in the world-wide brotherhood of "the Makings." A sack of "Bull" Durham is a letter of introduction that will win friends in every part of the globe.

GENUINE

"BULL" DURHAM
SMOKING TOBACCO

Millions of experienced smokers find the cigarettes they roll for themselves from pure, ripe "Bull" Durham tobacco better suited to their taste and more satisfactory than any they buy ready-made. The rich, fresh fragrance and smooth, mellow flavor of "Bull" Durham hand-made cigarettes afford healthful enjoyment and lasting satisfaction. Get "the Makings" today and "roll your own."

FREE An Illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a Package of cigarette papers, will both be mailed, free, to any address in United States on postal request. Address "Bull" Durham, Durham, N. C.

The Rabbit's Column
By Walter J. Mannville
HORSTOP OF THE BRAVES

Some job, this picking the winner of the "Rabbit's Column." I want to say that I selected a team that I think is the best that could be gathered, but so far I haven't come across anyone that agrees with me. Still there are hundreds of answers still to be looked at and perhaps I will write it. If not I shall have to give the tickets to the nearest guesser.

I think I will be able to announce tomorrow the details of the new contest for going to start in this column. I had thought out a somewhat elaborate scheme, but the editor says it is too complicated and he suggests that I "dope out" a simpler one. I think every baseball fan can take part in it. So I'm working on something much simpler.

Connie Mack has given out a statement to the effect that he is strong for the tang of the new game to base-running; that the steps and lightly graceful movements of the game help a runner to develop speed and agility. Collins and Barry were the nearest, Collins and Barry were the nearest, Collins and Barry were the nearest.
